LILY BULBS and SEED

Rt. 1, Troutdale, Oregon

WHOLESALE PRICE LIST - - - 1951 CROP

OFFERING NORTHWEST GROWN LILY BULBS

From the Stocks of

EDGAR L. KLINE.....Lake Grove, Ore.

LILYDALE BULB GARDENS.....Milwaukie, Ore.

YEREX BULB GARDENS.....Newberg, Ore.

WAND LILY GARDENS.....Troutdale, Ore.

In presenting this 1951 price list to our customers, we believe this is the most comprehensive and complete list of species and hybrid Lilies ever offered from northwest grown stock. In addition to the varieties which are listed we grow moderate quantities of a number of other varieties of Lilies and welcome inquiries concerning any which are commercially available at the present time.

Listed below are some new hybrid Lilies and selections which we are pleased to introduce this season. The response by the trade to our former introductions was most gratifying and we feel assured that these also will be found most valuable to the growing list of American grown Lilies.

L. Aurelian Golden Trumpets—A grand strain of the originator's stock, all selected and tagged while in flower to assure uniformity. The large fragrant trumpets are light unspotted golden yellow, in form somewhat like *L. Centifolium*. Height 5 to 6 feet. July to August flowering.

L. Corsair—One of Miss Isabella Preston's newest hybrids carrying medium sized upright vase-shaped flowers of a soft tangerine orange flushed red at the tips. Twelve to fifteen flowers to a stem. 2 to 3 feet tall. June to July flowering.

L. Gold Crest—An interesting small flowered lily originated by J. C. Taylor from a cross of *L. Philadelphicum* and *L. Tenuifolium* (*L. Pumilum*) var. *Golden Gleam*. The flowers are unspotted golden orange, slightly reflexed and carried in a crown at the top of the stem. 2 feet. Late June flowering.

L. Henryi x Aurelian Hybrids—A fine group of scale propagated selections of flaring and recurving lilies in pastel tones. Of easiest culture these plants afford a wealth of cut flower material as well as being excellent garden subjects. 5 to 6 feet. August flowering.

L. T. A. Havemeyer Hybrid Seedlings—The best group of semi-recurved hybrid lilies we have thus far encountered. Derived mainly through crossing *L. T. A. Havemeyer* with *L. Paulina Kline* and *L. Edmund L. Kagy*. These plants produce a myriad of large corsage type flowers in color varying from creamy white through lemon yellow to cadmium orange with deep green throats and a few garnet brown dots. Some special selections from this group will be introduced as named clones in the near future. Height 5 to 6 feet. August flowering.

L. Typhoon—Another late introduction in the Preston Hybrid group, this lily has upright flowers similar in size and shape to *L. Corsair* but pure flame scarlet in color. Height 2 to 3 feet. June to July flowering.

L. Waxwing—An early June flowering lily derived from a cross of *L. Philadelphicum* x *L. Amable*, originated by Mrs. J. C. Taylor. The flowers carried on 3 to 4 ft. stems, face outward and number from 10 to 15 on established plants. The color is bright orange yellow shaded fire red, freely dotted oxblood. An excellent addition to our early flowering lilies.

SALES AIDS

Our "Reference Chart of Lilies for Garden and Greenhouse" is now in its third printing. This Chart contains over 2,000 items of cultural information concerning the majority of lilies in commerce and is available at \$1.00 per copy postpaid. We are prepared to quote quantity prices on the Charts for resale on request. A number of our customers are offering this Chart along with their catalog listing of lilies.

As mentioned in one of our previous Trade lists, we now have available a new set of color transparencies for lecture and sales aid use. This set has been expanded during the past year and the list now includes over 200 subjects from which to choose. These photographs can be supplied as slides (2 x 2), enlarged transparencies in sizes 2 1/4 x 3 1/4 and larger or as color prints. A complete list of subjects available and details of their cost will be sent promptly upon request. In corresponding kindly advise whether slide, enlarged transparencies or prints are needed and approximate quantity.

In the following price list we have endeavored to briefly describe all of the stock offered by indicating flower type and size, color, height (maximum average for mature established bulbs) and flowering period under Northwest climatic conditions. All hybrid lilies are so indicated, all others are species or varieties of them.

	Per 10	Per 100	Delivery Date
L. Amabile — Recurved, medium, orange red, 3 ft. Late June. 4-6".....	3.15	25.00	Oct.

QUANTITY RATES ON LILY AND MISCELLANEOUS BULBS

25 Bulbs one variety and size at 100 rate.

250 Bulbs one variety and size at 100 rate less 10%.

Wholesale orders cannot be accepted for less than five bulbs of one variety and size except on items priced per each. Where so priced 1 to 25 bulbs will be supplied at the each price, 25 or more at single bulb price less 10%.

Flowering size indicates bulbs which will have flowered at least one season in our nursery. Large or 1st size bulbs are top size for the particular variety.

Terms: 2% for cash with order

or 2% 10 days, 30 days net for established accounts.

Unless otherwise specified, Bulbs will be shipped when dug in the Fall. Approximate first delivery date is indicated for each variety.

All Bulb prices are F.O.B. Troutdale, Oregon, and are subject to change without notice.

Our wholesale price lists are intended for the trade only. Kindly do not hand them to amateur growers.

In ordering please specify whether shipment is wanted via parcel post, express, or freight. If wanted by post kindly include postage with remittance.

Orders for growing crops accepted subject to crop failures, shortages, or other matters beyond our control.

Any claims for shortages or errors must be made within five days after receipt of goods as we will not be responsible after that time. We give no warranty, expressed or implied, as to description, quality, productiveness or any other matter in connection with the success of the seeds, bulbs or plants sold by us and will not be responsible in any way in cases of failure, other than to replace bulbs untrue to name. If the purchaser does not accept the goods on these terms, they are to be returned at once.

We extend to you an invitation to join THE NORTH AMERICAN LILY SOCIETY

This society was organized in 1947 to promote interest in the genus *Lilium*. All persons interested in lilies whether gardeners, growers or dealers are cordially invited to become members.

Annual membership \$3.00.

Sustaining membership \$5.00 or as much as the member desires to contribute.

Life membership \$100.00.

Membership entitles one to the Lily yearbook as well as the bulletins and news letters that are issued periodically. There are articles by scientists, commercial growers and amateurs on all phases of lily culture and breeding.
